Absolutely awesome. From beautiful ceremony music to getting the entire wedding party dancing (ages 14-80 on the dance floor all night!!), I could not have asked for a better DJ - and had so many guests comment about how great you were. Would not hesitate to book again for any future events, thanks for making our special day so perfect!!

Fantastic service and professionalism at our Wedding. Knew just the right song to play and when. We never had to worry about a thing. Communications and consultations leading up to the big day were clear and accommodating. Also fantastic at accommodating all of our last minute changes! Thank you so much for helping to make our day so special smile emoticon. Flawless performance.

Thank you so much for your awesome work on our wedding day. We had the most incredibly fun time and you were a big part of that. From the very special moments of Ju and Kev performing, to the good sound quality of the ceremony, to the first dance smoothly mixed into some bangers...then onto the most epic wedding dance floor we have ever had the pleasure of being on (let alone it being for our wedding), you were outstanding. As you could tell by the fact the dance floor was full of passionate punters all night, our guest had the best time and we have had so many comments about it being “the best wedding ever!”

Plan Your Wedding.

A wedding can be like a loaded gun just waiting to go off! Planning well in advance, and hiring experienced professionals plays a huge part in executing the perfect day, without firing off any stray bullets!

Planning a wedding can be extremely time consuming and stressful. Having to deal with venue managers, guest lists, entertainment providers, photographers, videographers, florists, celebrants, dress makers, caterers, the list doesn't end! Knowing where to start can be extremely difficult for many couples, especially for those who haven't planned an event before!

Knowing which suppliers to trust with your wedding day can be a hard call to make, but we can help as little or as much as you like! We can simply put you in touch with trusted, and experienced suppliers that we work with on a regular basis, or introduce you to one of our private event planners to help you every step of the way!

Make sure to start planning your wedding well in advance and checking dates with the suppliers that are most important to you especially if you plan to get married in summer. We have seen many couples miss out on their venue or DJ of choice due to leaving it too late!

One of the first steps when booking our DJs is arranging a time to meet with us in person. This is the perfect way for both parties to get to know a little bit about each other.

Knowing what kind of music you enjoy, the kind of friends and family we should expect on the day, and the kind of background you come from can help us pick the best suited DJ for you, and better prepare our playlists to set the perfect mood on the day!

We will also compile a detailed list of other suppliers involved with your wedding, and make contact with them prior to the day to make sure everyone's needs are taken care of. Most videographers rely on the DJ to have suitable connections to record your vows and speeches, the same way celebrants rely on us to provide quality microphones, and take charge with timing for songs during the ceremony.
